

CONTENTS

Introduction	I
• A strong-motion hot spot of the 2016 Meinong, Taiwan, earthquake (Mw = 6.4) <i>Hiroo Kanamori, Lingling Ye, Bor-Shouh Huang, Hsin-Hua Huang, Shiann-Jong Lee, Wen-Tzong Liang, Yen-Yu Lin, Kuo-Fong Ma, Yih-Min Wu, and Te-Yang Yeh</i>	XXX
• Estimation of seismic ground motions and attendant potential human fatalities from scenario earthquakes on the Chishan fault in southern Taiwan <i>Kun-Sung Liu</i>	XXX
• Seismicity variations prior to the 2016 ML 6.6 Meinong, Taiwan earthquake <i>Yi-Ying Wen and Chien-Chih Chen</i>	XXX
• Using geoelectric field skewness and kurtosis to forecast the 2016/2/6, ML 6.6 Meinong, Taiwan Earthquake <i>Hong-Jia Chen, Chien-Chih Chen, Guy Ouillon, and Didier Sornette</i>	XXX
• The 2016 Meinong earthquake to TEM PSHA2015 <i>Ya-Ting Lee, Yu-Ju Wang, Chung-Han Chan, and Kuo-Fong Ma</i>	XXX
• The seismogenic process of the 2016 Meinong earthquake, southwest Taiwan <i>Strong Wen, Yu-Lien Yeh, Yi-Zen Chang, and Chieh-Hung Chen</i>	XXX
• 3D Vs ambient noise tomography of the 2016 Mw 6.4 Meinong Earthquake source region in Taiwan <i>Hao Kuo-Chen, Kai-Xun Chen, Wei-Fang Sun, Chun-Wei Ho, Yuan-Hsi Lee, Zhuo-Kang Guan, Chu-Chun Kang, and Wen-Yen Chang</i>	XXX
• Preseismic anomalies in soil-gas radon associated with 2016 M6.6 Meinong earthquake, Southern Taiwan <i>Ching-Chou Fu, Vivek Walia, Tsanyao Frank Yang, Lou-Chuang Lee, Tsung-Kwei Liu, Cheng-Hong Chen, Arvind Kumar, Shih-Jung Lin, Tzu-Hua Lai, and Kuo-Liang Wen</i>	XXX
• Pre-seismic strain anomalies and coseismic deformation of Meinong earthquake from continuous GPS <i>Min-Chien Tsai, Tzay-Chyn Shin, and Kai-Wen Kuo</i>	XXX
• Shallow geological structures triggered during the Mw 6.4 Meinong earthquake, southwestern Taiwan <i>Maryline Le Béon, Mong-Han Huang, John Suppe, Shiuh-Tsann Huang, Erwan Pathier, Wen-Jeng Huang, Chien-Liang Chen, Bénédicte Fruneau, Stéphane Baize, Kuo-En Ching, and Jyr-Ching Hu</i>	XXX
• Co-seismic signatures in magnetometer, geophone, and infrasound data during the Meinong Earthquake <i>Jann-Yenq Liu, Chieh-Hung Chen, Tsung-Yu Wu, Hsiao-Ching Chen, Katsumi Hattori, I-Ching Yang, Tom Bleier, Karl Kappler, Yaqin Xia, Weisheng Chen, and Zhengyan Liu</i>	XXX

Terrestrial, Atmospheric and Oceanic Sciences

The 2016 Meinong, Taiwan Earthquake

Guest editors: Ruey-Juin Rau and Wen-Tzong Liang

TERRESTRIAL, ATMOSPHERIC AND OCEANIC SCIENCES

Terrestrial, Atmospheric and Oceanic Sciences (TAO) is a bi-monthly academic journal for the publication of scientific research papers on the solid earth, the atmosphere, the hydrosphere and the space. Since March 2003 (Vol. 14), TAO has been selected for coverage by the Science Citation Index® (SCI). It is published by the Chinese Geoscience Union (located in Taipei), the Geological Society, the Geophysical Society, the Meteorological Society, and the Oceanographic Society of the Republic of China (ROC). This journal publishes articles, notes, correspondence and reviews. Reviews should put previous scientific work of at least ten years in perspective; other manuscripts should be unpublished original contributions and of significant scientific values. Contents of TAO are also covered by GEOREF Serials List, Research Alert®, EBSCOhost, and Current Contents®/Physical Chemical and Earth Sciences. The publication of this journal is partially subsidized by the Ministry of Science and Technology of the ROC. The following journals have merged into TAO:

* Papers in Meteorological Research (published by the Meteorological Society of the ROC) after Vol. 12, No. 2

* Bulletin of Geophysics (published by the Institute of Geophysics, National Central University) after No. 27

* Acta Oceanographica Taiwanica (published by the Institute of Oceanography, National Taiwan University) after Vol. 42

INFORMATION FOR CONTRIBUTORS

Terrestrial, Atmospheric and Oceanic Sciences (TAO) is a SCI-accredited journal publishing original scientific articles, notes, correspondence, and reviews on the solid earth, atmosphere, hydrosphere and space. In general, articles should not exceed 15 printed pages including illustrations. “Notes and correspondence” should be limited to 5 printed pages. “Reviews” should put previous scientific work of at least ten years into perspective. Although reviews may be longer than articles, prospective authors are advised to discuss their plans with an editor or associate editor in advance. Submission of a contribution is assumed to indicate that no similar paper, other than an abstract or a preliminary report, has been, or will be, submitted for publication elsewhere.

1. Manuscript submission and preparation

Please kindly note that manuscripts must be written in English. If your native language is not English, please consider seeking help from English-speaking colleagues/friends in preparation of the text. Manuscripts should be submitted in electronic format. For electronic submission, manuscripts should be prepared in MS WORD and submitted by **Online Submission System (http://www.editorialmanager.com/tao/)**. For initial submission, the manuscript should be prepared (with line and page number) and organized in the following order:

- (1) Title page: Title of the manuscript (< 120 characters, including punctuation and spaces), the name(s) of the author(s), full affiliation(s) and address(es) of the author(s), the e-mail address/telephone/fax numbers of the corresponding author, and a concise and informative title should be provided.
- (2) Potential reviewers: Please suggest at least 5 potential international reviewers for your submission.
- (3) Key points: Please add three key points to the title page, the three key points should be provided to summarize your article and put them to the title page. Please note that each of them should be less than 85 characters including punctuation and spaces.
- (4) Abstract: An abstract is required at the beginning of the manuscript (< 1700 letters, including punctuation and spaces).
- (5) Keywords: At least three keywords should be provided after the abstract.
- (6) Text: Only standard terms and SI units should be used. Unfamiliar abbreviations must be defined when first used. All symbols should be clearly defined.
- (7) Acknowledgements: These should be as brief as possible.
- (8) References: The text citation should consist of the author and the year of publication, e.g., “according to Wang (1980)”, or “as shown by earlier studies (Wang 1980; Liou et al. 1987)”. In the list of references, references should be arranged alphabetically by author’s last name without numbering. Each reference must be complete and in the following form:
 - * For articles: author(s), year, title of article, title of journal, volume number, pages (abbreviations for journal titles should be in general form). If available, the Digital Object Identifier (DOI) of the cited reference should be added at the end of the reference:
Pruseth, K. L. and H. Palme, 2004: The solubility of Pt in liquid Fe-sulfides. *Chem. Geol.*, **208**, 233-245, doi: 10.1016/j.chemgeo.2004.04.014.
 - * For books: author(s), year, title of book, publisher, pages:
Lin, C. C., 1955: The Theory of Hydrodynamic Stability, Cambridge Univ. Press, 155 pp.
 - * For book chapters: author(s), year, chapter name, editors, title of book, publisher, pages:
Huang, H. J., F. Li, and X. R. Zhang, 2001: Water and sediment discharges from the Changjiang and Huanghe Rivers: A comparative study. In: Hu, D. X., S. Zhang, and W. Y. Han (Eds.), Land-Ocean Interaction in the Estuaries of the Changjiang and Pearl Rivers and the Adjoining Regions, China Ocean Press, Beijing, 36-49.

(9) Appendix: Lengthy mathematical analysis or data tabulation should normally be put into an appendix. If the original dataset is too large to be listed in its entirety, they may be posted in the TAO Electronic Supplement at the TAO website.

(10) Figure captions: Each figure must be accompanied by a caption. Photographs, charts and diagrams are all to be referred to as “Figure(s)” and should be numbered consecutively in the order to which they are referred.

(11) Illustrations: All figures should be of good quality. Lettering must be large enough to remain clearly legible when reduced. They may be embedded within the text.

(12) Tables: Each table should have a title and a legend explaining any abbreviations used in that table. Footnotes to tables should be indicated by superscript lower-case letters.

For detailed description and example, refer to “Preparation of Manuscript for Initial Submission” under “Guide for Authors” on the **TAO website (http://tao.cgu.org.tw)**.

2. Reviews and revision

All manuscripts are subjected to at least two international peer reviews. The authors are recommended to provide names, affiliations and e-mail addresses of 5 potential reviewers when submitting a manuscript. Manuscripts which are returned to the authors for revision should be resubmitted within 3 months; otherwise they will be considered withdrawn.

3. Copyright

The corresponding author is required to finish the AGREEMENT TO TRANSFER COPYRIGHT questionnaire (under Additional Information on EM System) upon submission. Each manuscript published in the Terrestrial, Atmospheric and Oceanic Sciences journal is allowed only one first author and only one corresponding author. Designation of co-first authors and co-corresponding authors is not permitted.

4. Open Access (from Vol. 27, No. 2)

Terrestrial, Atmospheric and Oceanic Sciences is a fully open access journal, which means that all articles are available on the internet to all users immediately upon publication. Non-commercial use and distribution in any medium is permitted, provided the author and the journal are properly credited. See: <https://creativecommons.org/licenses/by/4.0/>

5. Use of materials from TAO (from Vol. 1, No. 1 to Vol. 27, No. 1)

Permission is granted for individuals to make single copies for their personal use in research, study, or teaching and to use figures, tables, and short quotes from this Journal for re-publication in scientific books and journals. There is no charge for any of these uses. The reproduction of multiple copies, the use of full articles, and the use of extracts for commercial purposes require specific permission from the TAO office.

6. Page charges

- (1) For regular issues: NT\$500 (US\$15) per page for articles of 15 pages or less, NT\$1000 (US\$30) per additional page if an article exceeds 15 pages.
- (2) For special issues or special sections: NT\$500 (US\$15) per page for special issues/sections of 100 pages or less, NT\$1000 (US\$30) per additional page if a special issue/section exceeds 100 pages.
- (3) Color pages: NT\$4000 (US\$120) extra charge per page.

7. Reprints

Reprints are available upon order, refer to “Ordering Reprints” under “Guide for Authors”. Order form can be downloaded from the TAO website.

8. Subscriptions, orders, and claims

Subscription prices are available on the TAO website. For orders, claims, and enquiries, please contact the TAO office through e-mail (**tao@cgu.org.tw**).
